## Kick-Start Your Career in Clean Energy – Train to Become A Solar Installer

Goodwill now offers hands-on training for solar installer jobs. This is a **four-week training course, 40 hours per week**. The fast-growing solar industry has a high demand for knowledgeable installers. You will also benefit from a host of wraparound support services to meet your unique needs. From transportation, mentoring, and other services, we can connect you with what you need before, during and after your training.

### WHAT YOU'LL LEARN

- Electrical energy fundamentals
- Safety standards related to solar and storage
- Solar and storage installation basics
- Steps to commission a solar storage system
- Common solar and storage maintenance tasks
- Solar site evaluation
- Customer service excellence

### WHAT YOU'LL RECEIVE

- Workplace safety (OSHA-10, CPR/First Aid/AED)
- Construction basics
- Industry recognized certifications in Solar and Storage Installation
- Wrap-around supports during and after training
- Career opportunities with average starting salaries of \$42k+ per year
- Job placement support
- Weekly stipend while in training

**Training Specifics:** Must be 18 and a high school graduate or equivalent to participate, comfortable with heights (climbing roofs), and exposure to a variety of external elements and weather. Four-week training course, 40 hours per week.
